

ENVIRONMENTAL POLICY

This document outlines ProjX's Environmental Policy.

OUR VISION

ProjX is committed to understanding and minimising any adverse environmental impacts as a result of its business activities, whilst continuing to meet the expectations of its customers for quality, and to providing a safe working environment for its employees.

OUR OBJECTIVES

The company is a firm believer that its employees and associates of the company have an important role to play in achieving the Company's environmental objectives.

It is therefore ProjX's policy to:

- Make environmental protection an integral part of all business planning and of equal importance with other key operational, business and strategic objectives;
- Educate and train employees on a continual basis with respect to environmental issues, safety hazards, rules and practices, and foster an appropriate environment in which employee participation is welcomed in improving company performance;
- Ensure that the company is in full compliance with all applicable environmental laws and regulations;
- Reduce, reuse and recycle resources wherever practicable and ensure that waste is disposed of safely and with minimal impact; and
- Expect as high an environmental standard from all of our suppliers as we would from ourselves.

This policy will be reviewed at regular intervals and where appropriate, will be revised accordingly.
